

POBLOCKI
SIGN COMPANY LLC

Challenge us

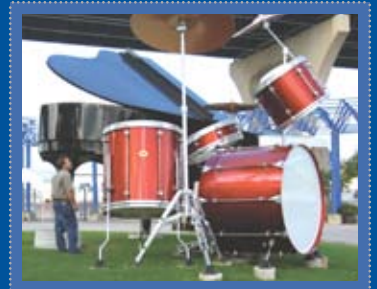

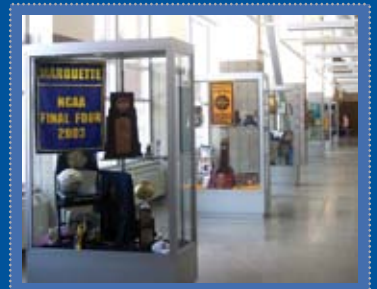

SPECIALTY FABRICATION:
**CUSTOM DISPLAYS
TO MEET ANY OBJECTIVE**

Schools, churches, government facilities and other organizations often have unique goals and space considerations for their displays. Poblocki Sign has the tools and talent to deliver specialty displays that fit the most exacting specs.

Our clients count on us today for high-quality, completely custom specialty displays of all kinds. We build attractive, durable display cases, directories, message boards,

kiosks and other pieces to suit your space. Whether you've got irregular walls, a recessed opening or any other constraint, we'll produce a case that fits right and looks great.

Unlike many sign companies, we aren't bound by our catalog. There's virtually no limit to what our veteran staff of designers and fabricators can create to meet your unique needs. We thrive on these challenges, so bring us yours today.

READY RIGHT OUT OF THE BOX

We build display cases, exhibit cases and directories to your specs with durable, solid-aluminum frames. Low-bid production houses will ship you a display made of lesser-quality components you have to piece together. But we create completely custom pieces and ship them fully factory assembled, so all that's left is mounting.

COST-EFFECTIVE DIRECTORIES, MESSAGE BOARDS

If your school, church, small business or other organization can't accommodate a large marquee, a Poblocki message board is the perfect, cost-effective option. Select a single-faced or double-faced board, add an optional illuminated header with your logo, and let us take care of all the rest. Our solid-aluminum indoor/outdoor directories can also be customized with name strips, map applications and more.

KIOSKS AND MUCH MORE

Cities, transit facilities, theaters and entertainment venues also look to Poblocki to design, engineer and build interior and exterior kiosks to match any environment. And our capabilities don't end with this sheet. Our team of seasoned craftspeople is ready to take on any project and provide a custom specialty piece that gives your facility a distinct touch and builds your brand.
